

Outline of Design Responsibilities

I. District

- A. Determine Need for Earth Retaining System, Provide Site Data
- B. Standard Plan Systems without Alternatives
- C. Standard Plan Systems with Alternatives
- D. Special Soil Reinforcement Systems and Experimental Systems

II. Office of Structure Design

- A. Planning Studies
- B. Standard Plan Systems
- C. Special Design Systems
 - 1. Includes Mechanically Stabilized Embankment and Soil Nail Wall Systems
- D. Proprietary Systems
 - 1. Approval
 - 2. Working Drawing
- E. Cost Reduction Incentive Proposals

III. Translab

- A. Feasibility Studies
- B. Foundation Investigation
- C. Special Soil Reinforcement Systems and Experimental System
 - 1. Includes Geotechnical Design for Soil Nail Wall System
- D. Cost Reduction Incentive Proposals
